

“AN ITALIAN JOURNEY”

Courses in Italian language and culture for foreigners

"Travelling is walking toward the horizon, meeting the other, discovering, and coming back richer than before."

Luis Sepulveda

Siena Itatech is a spin-off of the Università per Stranieri di Siena, which since 1823 has specialized in teaching Italian to foreigners at all levels and from all backgrounds.

Siena Itatech builds on the legacy of the University and offers the opportunity to follow Italian language courses fully customized for tourists or travellers, to discover the territory of Siena and Tuscany. We'll help you better experience the rich language and culture of Italy.

Our teachers organize lessons in Italian language and culture by joining you side by side in your linguistic and cultural 'voyage' and helping you reach your 'destination': You are in control of your experience here, deciding what to explore and how much time to dedicate to each area of study.

Our teaching methods meet all your needs: we organize courses in conversation, grammar, and courses to discover Italian Literature, Cinema and Opera. Not only do we offer lessons on the Greats of Literature and Cinema, but also on Italian Cuisine and Fashion so as to introduce you to both the splendors of the past and the treasures of contemporary Italy.

Our onsite lessons are a favorite! Join us on foot to explore Siena, its history, its artistic treasures, and the famous Palio- a tradition renewed every year through the unchanging enthusiasm of the locals and visitors who take part in the celebrations.

Naturally, your requests are not always the same, and for this reason our teaching team goes further: we can examine together a period of Italian history, compare the dialects of our country, design a linguistic and cultural study program on Italian and regional cuisines with a particular focus on wine, or simply enjoy conversing in Italian, so that you have the necessary skills for communicating when shopping, asking for directions, or ordering in a restaurant.

This is our path, this is our Italian journey which we are eager to share with all of you, enjoying together a direct, meaningful experience to take with you upon your departure. The duration of courses is decided together, based on your availability, along with the frequency, hours, and days that suit you best.

We can organize lessons at our campus in the city center or in your own lodging. Lessons can be either individual or in small groups.

Write to us at: info@sienaitatech.it
